Numerator

Patients in the denominator are included in this numerator if they meet at least ONE of the following criteria:

Numerator Criteria	Area to Document within eClinicalWorks
A most recent HbA1c level (performed during the measurement period) of > 9.0% is recorded as a lab	Record this information from one of the following locations: - Progress Notes > Treatment > Lab > order HbA1c lab - Progress Notes > Patient Dashboard > Labs > New > order HbA1c lab - Patient Hub > Labs > New > order HbA1c lab - Telephone Encounter > Labs/DI tab > Labs > New > order HbA1c lab - Telephone Encounter > Virtual Visit > Treatment > Labs > order HbA1c lab IMPORTANT! Once the HbA1c lab is ordered and the results are received, the <i>Received</i> box must be checked AND the results must be entered in the A1c section of the yellow grid. Note: One of the following LOINC codes must be linked to the HbA1c lab: 4548-4, 17855-8, 17856-6

Numerator Criteria	Area to Document within eClinicalWorks
A most recent HbA1c level (performed during the measurement period) of > 9.0% is recorded as a procedure	Progress Notes > Billing Note: The following CPT* II code satisfies this numerator: 3046F: A1C > 9% 3046F with 8P modifier: Not Performed The following CPT II codes do NOT satisfy this numerator: 3044F 3045F
A most recent HbA1c level (performed during the measurement period) of > 9.0% is recorded as structured data	To satisfy this numerator, record this information as structured data from the following location: - Progress Notes > Examination > CQM Exception > Hemoglobin A1c not performed > Q: Reason 01: No reason specified
