

PQRS 110 (NQF 0041) (CMS 147) - Preventive Care and Screening: Influenza Immunization

Description

Percentage of patients aged 6 months and older seen for a visit between October 1 and March 31 who received an influenza immunization OR who reported previous receipt of an influenza immunization.

Reporting Frequency

Minimum of once patients with visits between January and March for the 2015-2016 influenza season AND a minimum of once for patients with visits between October and December for the 2016-2017 influenza season.

Denominator

Patients are included in this denominator if they meet ALL of the following criteria:

Denominator Criteria	Area to Document within eClinicalWorks
They are six months of age or older	Patient Information
They have had an appropriate office visit during the two flu seasons (January 1 through March 31* and October 1 through December 31†)	Progress Notes > Billing Note: The following E&M codes are considered appropriate encounters: 90945, 90947, 90951, 90952, 90953, 90954, 90955, 90956, 90957, 90958, 90959, 90960, 90961, 90962, 90963, 90964, 90965, 90966, 90967, 90968, 90969, 90970, 99201, 99202, 99203, 99204, 99205, 99212, 99213, 99214, 99215, 99304, 99305, 99306, 99307, 99308, 99309, 99310, 99315, 99316, 99324, 99325, 99326, 99327, 99328, 99334, 99335, 99336, 99337, 99341, 99342, 99343, 99344, 99345, 99347, 99348, 99349, 99350, G0438, G0439

*. 2015-2016 flu season

†. 2016-2017 flu season

Numerator

Patients in the denominator are included in the numerator if they meet at least ONE of the following criteria:

Numerator Criteria	Area to Document within eClinicalWorks
An influenza immunization or a report of the previous receipt of an influenza administration is recorded from the Immunization window	An influenza immunization can be recorded from one of the following locations: ■ Progress Notes > Immunization > Add Immunization OR Given in past if any ■ Patient Hub > Immunization > Add Immunization OR Given in past if any ■ Telephone Encounters > Virtual Visit > Immunization > Add Immunization OR Given in past if any Note: One of the following CVX codes can be linked with the influenza immunization: 111, 135, 140, 141, 144, 149, 150, 160, 161, 166, 153, 155, 158
An influenza immunization or a report of the previous receipt of an influenza administration is recorded	An influenza administration procedure can be recorded from the following location: ■ Progress Notes > Billing Note: The following CPT* codes must be linked to the influenza administration to satisfy the numerator: 90653, 90655, 90656, 90657, 90658, 90660, 90661, 90662, 90664, 90666, 90667, 90668, 90672, 90685, 90686, 90687, 90688 The following CPT II code satisfies this numerator: ■ G8482 - Influenza given The following CPT II code does NOT satisfy this numerator: ■ G8484 - Reason not specified

Numerator Exclusion

Patients are excluded from this numerator if they meet at least ONE of the following criteria:

Numerator Exclusion	Area to Document within eClinicalWorks
The influenza immunization was not administered for a reason documented as structured data	Record this information as structured data from the following location: ■ Examination > CQM Exceptions > Influenza Vaccine not Administered > Q1: Reason ◆ 01: Medical reason ◆ 02: Patient reason ◆ 03: System reason Note: Answering O4: <i>No reason specified</i> does NOT exclude patients from the numerator.
The influenza immunization was not administered for a reason documented from the Immunization window	To satisfy this numerator exclusion, record this information from the following location: ■ Progress Notes > Immunization > Add Immunization > select the proper flu immunization > Status drop-down list > Not Administered > Reason (any of the available reasons)
The influenza immunization was not administered for a reason documented as a diagnosis	To satisfy this numerator exclusion using ICD codes, record this information from the following location: ■ Progress Notes > Assessments Note: The following ICD-10 codes satisfy this numerator exclusion: Z28.21
The influenza immunization was not administered for a reason documented as a procedure	To satisfy this numerator exclusion using CPT* codes, record this information from the following location: ■ Progress Notes > Billing Note: The following CPT code excludes patients from the numerator: ■ G8483 - Patient Reason The following CPT code does NOT exclude patients from the numerator: ■ G8484 - Reason not specified

Setup

The following procedures are related to setting up this measure:

- CVX codes must be linked with immunizations from the New Immunization or Update Immunization window:

Access this feature from one of the following locations:

- ◆ EMR > Immunizations/Therapeutic Injections > Immunizations/Therapeutic Injections > New
- ◆ EMR > Immunizations/Therapeutic Injections > Immunizations/Therapeutic Injections > click the green arrow next to the New button to open a pick list and click Update

- CPT administration codes must be linked with immunizations from the New Immunization or Update Immunization window:

Access this feature from one of the following locations:

- ◆ EMR > Immunizations/Therapeutic Injections > Immunizations/Therapeutic Injections > New
- ◆ EMR > Immunizations/Therapeutic Injections > Immunizations/Therapeutic Injections > click the green arrow next to the New button to open a pick list and click Update
- Structured data must be mapped to community items from the Mapper window:

Access this feature from: Community > Mappings > Structured Data
