

## PQRS 238 (NQF 0022) (CMS 156) - Use of High-Risk Medications in the Elderly

### Description

Percentage of patients 66 years of age and older who were ordered high-risk medications. Two rates are reported:

1. The percentage of patients who were ordered at least one high-risk medication.
2. The percentage of patients who were ordered at least two different high-risk medications.

### Reporting Frequency

Once per reporting period.

### Denominator 1

Patients are included in this denominator if they meet ALL of the following criteria:

| Denominator 1 Criteria                                                        | Area to Document within eClinicalWorks                                                                                                                                                                                                                |
|-------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| They are 66 years of age or older on the date of an appropriate encounter     | Patient Information                                                                                                                                                                                                                                   |
| They have had an appropriate encounter recorded during the measurement period | Progress Notes > Billing<br><b>Note:</b> The following E&M codes are considered appropriate encounters:<br>99201, 99202, 99203, 99204, 99205, 99212, 99213, 99214, 99215, 99341, 99342, 99343, 99344, 99345, 99347, 99348, 99349, 99350, G0438, G0439 |

**Numerator 1**

Patients in the denominator are included in the numerator if they meet at least ONE of the following criteria:

| <b>Numerator 1 Criteria</b>                                                                                | <b>Area to Document within eClinicalWorks</b>                                                                                                                                                                                                                                                                                                                                                       |
|------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| They have had at least one high risk medication ordered during the measurement period                      | Record this information from one of the following locations: <ul style="list-style-type: none"> <li>■ Progress Notes &gt; Treatment &gt; Add</li> <li>■ Telephone Encounter &gt; Rx tab &gt; Select Rx</li> <li>■ Telephone Encounter &gt; Virtual Visit tab &gt; Treatment &gt; Add</li> </ul>                                                                                                     |
| The ordering of at least one high risk medication is recorded as a procedure during the measurement period | Record this information from the following location: <ul style="list-style-type: none"> <li>■ Progress Notes &gt; Billing</li> </ul> <p><b>Note:</b> The following CPT* II code satisfies this numerator:</p> <ul style="list-style-type: none"> <li>■ G9365</li> </ul> <p>The following CPT II code does NOT satisfy this numerator:</p> <ul style="list-style-type: none"> <li>■ G9366</li> </ul> |

**Denominator 2**

Patients are included in this denominator if they meet ALL of the following criteria:

| <b>Denominator 2 Criteria</b>                                                 | <b>Area to Document within eClinicalWorks</b>                                                                                                                                                                                                                  |
|-------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| They are 66 years of age or older on the date of an appropriate encounter     | Patient Information                                                                                                                                                                                                                                            |
| They have had an appropriate encounter recorded during the measurement period | Progress Notes > Billing <p><b>Note:</b> The following E&amp;M codes are considered appropriate encounters:<br/>99201, 99202, 99203, 99204, 99205, 99212, 99213, 99214, 99215, 99341, 99342, 99343, 99344, 99345, 99347, 99348, 99349, 99350, G0438, G0439</p> |

**Numerator 2**

Patients in the denominator are included in the numerator if they meet at least ONE of the following criteria:

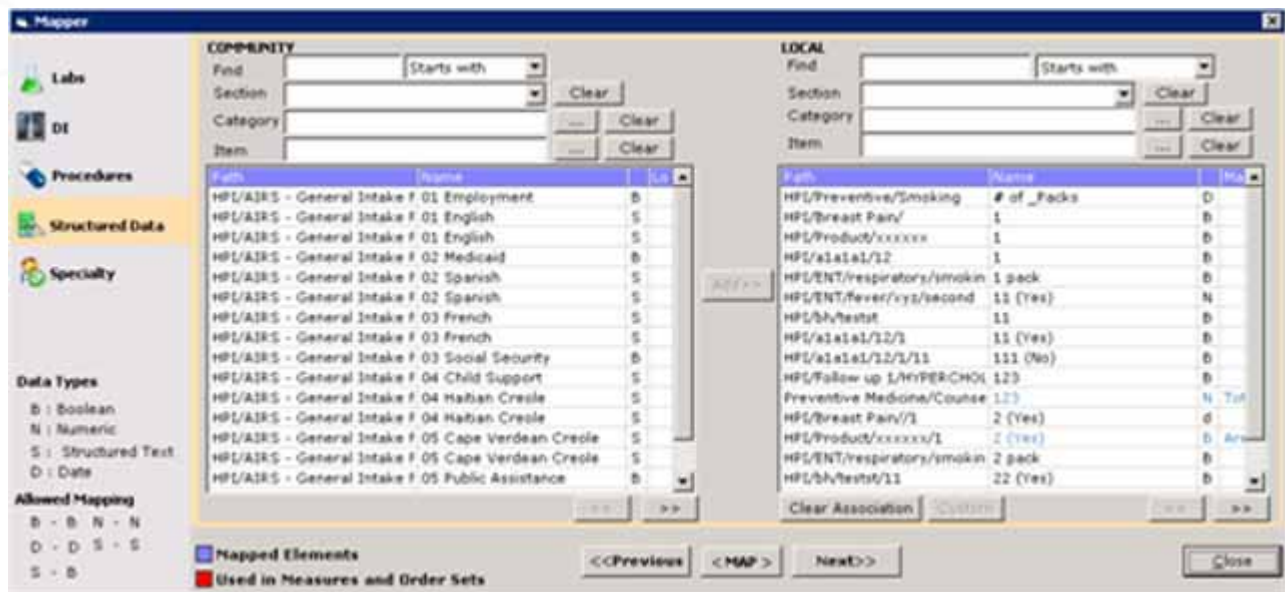

| <b>Numerator 2 Criteria</b>                                                            | <b>Area to Document within eClinicalWorks</b>                                                                                                                                                                                                                                                   |
|----------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| They have had at least two high risk medications ordered during the measurement period | Record this information from one of the following locations: <ul style="list-style-type: none"> <li>■ Progress Notes &gt; Treatment &gt; Add</li> <li>■ Telephone Encounter &gt; Rx tab &gt; Select Rx</li> <li>■ Telephone Encounter &gt; Virtual Visit tab &gt; Treatment &gt; Add</li> </ul> |

| Numerator 2 Criteria                                                                                        | Area to Document within eClinicalWorks                                                                                                                                                                                                             |
