

PQRS 317 - Preventive Care and Screening: Screening for High Blood Pressure and Follow-Up Documented

Description

Percentage of patients aged 18 years and older seen during the reporting period who were screened for high blood pressure AND a recommended follow-up plan is documented based on the current blood pressure (BP) reading as indicated.

Reporting Frequency

Once per reporting period.

Denominator

Patients are included in this denominator if they meet ALL of the following criteria:

Denominator Criteria	Area to Document within eClinicalWorks
They are 18 years of age or older on the date of the encounter	Patient Information
They have had an appropriate office visit during the measurement period	Progress Notes > Billing Note: The following E&M codes are considered appropriate encounters: 90791, 90792, 90832, 90834, 90837, 90839, 90845, 90880, 92002, 92004, 92012, 92014, 96118, 99201, 99202, 99203, 99204, 99205, 99212, 99213, 99214, 99281, 99282, 99283, 99284, 99285, 99215, 99304, 99305, 99306, 99307, 99308, 99309, 99310, 99318, 99324, 99325, 99326, 99327, 99328, 99334, 99335, 99336, 99337, 99340, 99341, 99342, 99343, 99344, 99345, 99347, 99348, 99349, 99350, D7140, D7210, G0101, G0402, G0438, G0439

Numerator

Patients in the denominator are included in this numerator if they meet ALL of the following criteria:

Numerator Criteria	Area to Document within eClinicalWorks
At least ONE of the following:	
■ Their most recent screening for blood pressure is recorded as Vitals	Record this information as structured data from one of the following locations: ■ Progress Notes > Vitals > BP
■ Their most recent screening for blood pressure is recorded as a procedure	Record this information from the following location: ■ Progress Notes > Billing
	Note: The following CPT* II codes satisfy the numerator: ■ G8783: Normal blood pressure reading documented, follow-up not required ■ G8950: Pre-Hypertensive or Hypertensive blood pressure reading documented, AND the indicated follow-up is documented The following CPT II codes do NOT satisfy the numerator: ■ G8785: Blood pressure reading not documented, reason not given ■ G8952: Pre-Hypertensive or Hypertensive blood pressure reading documented, indicated follow-up not documented, reason not given

Numerator Criteria	Area to Document within eClinicalWorks
If the blood pressure reading is pre-hypertensive (≥ 120 and ≤ 139 systolic AND ≥ 80 and ≤ 89 diastolic) or hypertensive (≥ 140 systolic OR ≥ 90 diastolic), at least ONE of the following must be satisfied:	
■ If the patient is pre-hypertensive, a pre-hypertensive blood pressure follow up plan must be documented as structured data, a diagnosis, or a procedure and ONE of the following must be met: ■ At least ONE lifestyle recommendation can be recorded as structured data ■ A referral to an alternative/primary care provider is recorded as structured data	A pre-hypertensive blood pressure follow-up plan can be documented as structured data from the following location: ■ Progress Notes > Preventive Care > Counseling > BP Management > Q: Pre-Hypertensive Follow-Up Plan:
	Record this information from the following location: ■ Progress Notes > Assessments
	Note: The following ICD-10 codes indicate a BP follow up plan: Z71.3, Z71.89
	Progress Notes > Billing
	Note: The following CPT/HCPCS codes indicate a BP follow up procedure: ■ S9452, S9470, S9451, S9449
	Lifestyle recommendations can be documented as structured data from any of the following locations: ■ Progress Notes > Preventive Care > Counseling > BP Management ◆ Q: Lifestyle Recommendations: ◆ Q: Physical Activity Recommendation: ◆ Q: Weight Reduction Recommendation: ◆ Q: Dietary Recommendation: ◆ Q: Moderation of Etoh Consumption Recommendation: A referral to an alternative/primary care provider can be documented as structured data from: ■ Progress Notes > Preventive Care > Counseling > BP Management > Q: Referral to Alternative/Primary Care Provider:

Numerator Criteria	Area to Document within eClinicalWorks
- If the patient has their first hypertensive reading, a first hypertensive blood pressure follow up plan must be documented as structured data, a diagnosis, or a procedure and ONE of the following must be met: - At least ONE lifestyle recommendation can be recorded as structured data - A referral to an alternative/primary care provider is recorded as structured data	A first hypertensive blood pressure follow-up plan can be documented as structured data from the following location: - Progress Notes > Preventive Care > Counseling > BP Management > Q: First Hypertensive BP Reading Follow-Up Plan: Progress Notes > Assessments Note: The following ICD-10 codes indicate a BP follow up plan: Z71.3, Z71.89 Progress Notes > Billing Note: The following CPT/HCPCS codes indicate a BP follow up procedure: - S9452, S9470, S9451, S9449 Lifestyle recommendations can be documented as structured data from any of the following locations: - Progress Notes > Preventive Care > Counseling > BP Management - Q: Lifestyle Recommendations: - Q: Physical Activity Recommendation: - Q: Weight Reduction Recommendation: - Q: Dietary Recommendation: - Q: Moderation of Etoh Consumption Recommendation: A referral to an alternative/primary care provider can be documented as structured data from: - Progress Notes > Preventive Care > Counseling > BP Management > Q: Referral to Alternative/Primary Care Provider:
- If the patient has their second hypertensive reading, at least ONE lifestyle recommendation must be recorded as structured data and ONE of the following must be met: - Anti-hypertensive medications can be prescribed - A referral to an alternative/primary care provider is recorded as structured data	Lifestyle recommendations can be documented as structured data from any of the following locations: - Progress Notes > Preventive Care > Counseling > BP Management - Q: Lifestyle Recommendations: - Q: Physical Activity Recommendation: - Q: Weight Reduction Recommendation: - Q: Dietary Recommendation: - Q: Moderation of Etoh Consumption Recommendation: Record an anti-hypertensive medication from one of the following locations: - Progress Notes > Treatment > Add - Progress Notes > Current Medications > Add - Telephone Encounter > Rx tab > Select Rx - Telephone Encounter > Virtual Visit tab > Treatment > Add - Telephone Encounter > Virtual Visit tab > Current Medication > Add A referral to an alternative/primary care provider can be documented as structured data from: - Progress Notes > Preventive Care > Counseling > BP Management > Q: Referral to Alternative/Primary Care Provider:

Numerator Exclusion

Patients are excluded from this numerator if they meet at least ONE of the following criteria:

Exclusion Criteria	Area to Document within eClinicalWorks
Structured data has been recorded indicating that blood pressure or a blood pressure follow up plan is not documented	To satisfy this numerator exclusion criteria, record this information as structured data from one of the following locations: ■ Progress Notes > Examination > CQM Exceptions > BP Management > Q1: BP not documented ◆ O1: Patient not eligible ◆ O2: No reason specified ■ Progress Notes > Examination > CQM Exceptions > BP Management > Q2: BP plan of care not documented ◆ O1: Patient not eligible ◆ O2: No reason specified Note: Answering O2: <i>No reason specified</i> to either of these questions does NOT exclude patients from the numerator.
A procedure has been recorded indicating that blood pressure or a blood pressure follow up plan is not documented	Record this information from the following location: ■ Progress Notes > Billing Note: The following CPT* II codes exclude patients from the numerator: ■ G8784: Blood pressure reading not documented, documentation the patient is not eligible The following CPT II codes do NOT exclude patients from the numerator: ■ G8785: Blood pressure reading not documented, reason not given ■ G8952: Pre-Hypertensive or Hypertensive blood pressure reading documented, indicated follow-up not documented, reason not given
A diagnosis for hypertension has been recorded	Progress Notes > Assessments Note: The following ICD-10 code indicates hypertension: I10

Setup

The following procedures are related to setting up this measure:

- Vitals must be mapped to Vitals Categories from the Configure Vitals window:

Name	Standard Vital Type	Mand...	Display...
Wt Change	Weight Change	☒	☒
abc	Hips	☒	☒
far vision		☐	☐
BP	Blood Pressure	☐	☒
lambai	Glucose	☐	☒
Lambai2014	Waist Hips Ratio	☐	☒
Ht	Height	☐	☐
Wt	Weight	☐	☐
BMI	BMI	☐	☐
Temp	Temperature	☐	☒
BSA	Body Surface Area	☐	☐
HR	Heart Rate	☐	☐
BP_Sitting		☐	☒
RR	Respiratory Rate	☐	☐
Oxygen sat %	Oximetry	☐	☐

☒ Automatically carry forward height from previous visit after certain age
 Age for male Age for female

☒ Automatically calculate hypertension and prehypertension for BP

☒ Enable WHO Growth Charts for 0 to 2 Years (uses CDC when unchecked)
 (Note: From 2 to 20 years eCW uses CDC data as recommended by CDC)

☒ Enable Down's Syndrome Growth Charts
 (Note: Growth chart data for children with Down Syndrome provided with permission from www.growthcharts.com. Percentiles are approximate; use at your own discretion)
