

PQRS 46 (NQF 0097): Medication Reconciliation Post-Discharge

Description

The percentage of discharges from any inpatient facility (e.g. hospital, skilled nursing facility, or rehabilitation facility) for patients 18 years and older of age seen within 30 days following discharge in the office by the physician, prescribing practitioner, registered nurse, or clinical pharmacist providing on-going care for whom the discharge medication list was reconciled with the current medication list in the outpatient medical record.

This measure is reported as three rates stratified by age group:

1. Reporting Criteria 1: 18-64 years of age
2. Reporting Criteria 2: 65 years and older
3. Total Rate: All patients 18 years of age and older

Reporting Frequency

Each inpatient facility discharge date.

Denominator

Patients are included in this denominator if they meet ALL of the following criteria:

Denominator Criteria	Area to Document within eClinicalWorks
They are at least one of the following ages: 1. 18-64 years of age 2. ≥ 65 years of age 3. ≥ 18 years of age	Patient Information
They have been discharged from an inpatient facility in the measurement period	Record this information as structured data from one of the following locations: ■ Progress Notes > HPI > Interim History > Transition of care from hospital > Q1: Date of discharge from the hospital: ■ Progress Notes > HPI > Interim History > Transition of care from other inpatient facility > Q1: Date of discharge from inpatient facility:

Denominator Criteria	Area to Document within eClinicalWorks
They have had an applicable office visit within 30 days after their discharge from the inpatient facility	Progress Notes > Billing
	Note: The following E&M codes are considered an appropriate encounter: 90791, 90792, 90832, 90834, 90837, 90839, 90845, 99201, 99202, 99203, 99204, 99205, 99211, 99212, 99213, 99214, 99215, 99324, 99325, 99326, 99327, 99328, 99334, 99335, 99336, 99337, 99341, 99342, 99343, 99344, 99345, 99347, 99348, 99349, 99350, 99495, 99496, G0402, G0438, G0439
Note: This denominator is based on discharges followed by an office visit, not patients. Patients may appear in the denominator more than once if there was more than one discharge followed by an office visit in the reporting period.	

Numerator

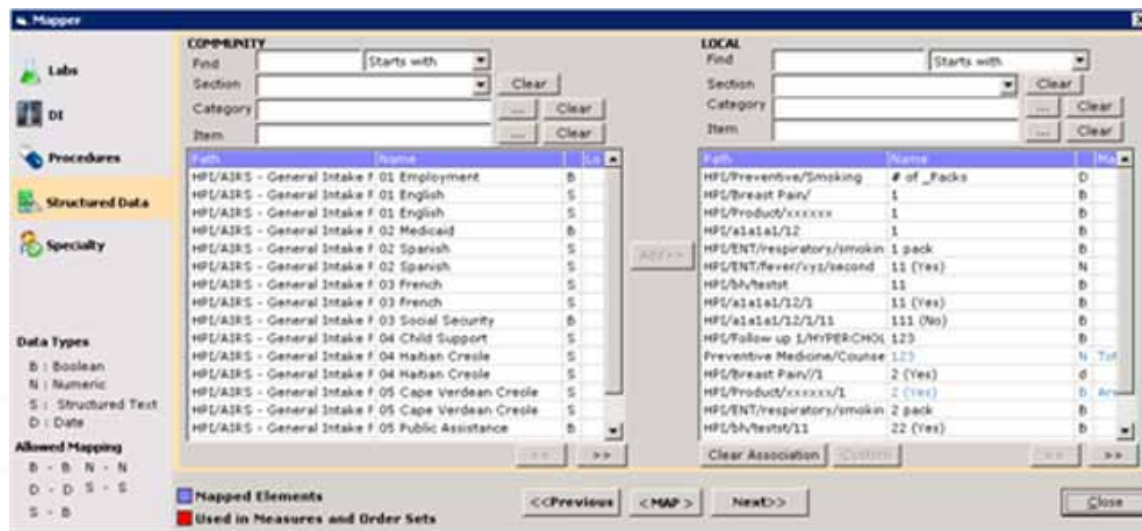

Patients in the denominator are included in this numerator if they meet at least ONE of the following criteria:

Numerator Criteria	Area to Document within eClinicalWorks
A reconciliation of the discharge medications with the current medication list conducted by a prescribing practitioner, clinical pharmacist, or registered nurse on or within 30 days of discharge is recorded as structured data	Record this information as structured data from one of the following locations: ■ Progress Notes > HPI > Interim History > Transition of care from hospital > Q3: Discharge medication review and reconciled from hospital: ◆ O1: Medications left unchanged ◆ O2: Medications changed (e.g., discontinued, changed or added) ■ Progress Note > HPI > Interim History > Transition of care from other inpatient facility > Q3: Discharge medication review and reconciled from hospital: ◆ O1: Medications left unchanged ◆ O2: Medications changed (e.g., discontinued, changed or added)
	Note: If structured data is NOT recorded indicating that the discharge medications are reviewed and reconciled, the numerator is NOT satisfied.
A reconciliation of the discharge medications with the current medication list is recorded as a procedure	Record this information from the following location: ■ Progress Notes > Billing
	Note: The following CPT* II code satisfies the numerator: ■ 1111F The following CPT II code does NOT satisfy the numerator: ■ 1111F with 8P modifier
